

## **Guide to Making a Zodiac Costume – INTRODUCTION**

Like the Virtues costume guides, the Zodiac Signs are relatively simple – they basically all involve making a cardboard mask from an A4 paper template, then wearing it with a matching piece of fabric draped over the top of your more practical, outdoor clothing. Some of the Zodiac Signs are more complicated than others, because they involve more cutting and sticking. However, none of them require sewing, and the only tools you need are scissors, sticky tape, a craft knife or hole punch, and possibly a glue stick. Feel free to choose your own colour combinations for the card (and ribbons, where appropriate), or add additional decoration to the mask, if you wish – the more theatrical the finished the result, the better!
